# Міністерство освіти і науки України Львівський національний університет імені Івана Франка Факультет прикладної математики та інформатики Кафедра програмування

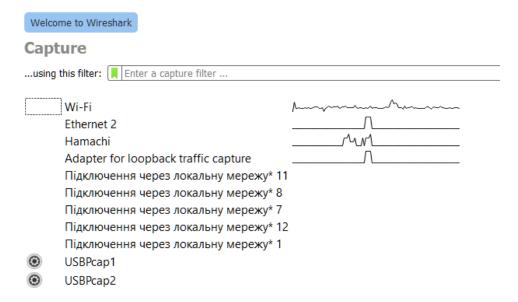

Звіт до лабораторної роботи №3 з теми "Інтерфейс аналізатора пакетів Wireshark"

> Підготував: студент ПМІ-31 Процьків Назарій

Мета: Отримати загальні уявлення про функціональні можливості аналізатора мережевих пакетів Wireshark, ознайомитися з графічним інтерфейсом програми, навчитися захоплювати, сортувати і фільтрувати пакети.

#### Хід роботи

- 1. Для виконання цієї лабораторної інсталював аналізатор мережевих пакетів Wireshark та Npcap, драйвер для захоплення мережевого трафіку.
- 2. Відкрив його у режимі адміністратора:

Обрав з переліку потрібний мережевий інтерфейс та почав процедуру захоплення пакетів.

- 3. Здійснив перехід на сайт у браузері.
- 4. Ознайомився з трьома основними елементами головного вікна програми.

- 14. Ознайомився з пунктами у меню Statistics.
- 15. CaptureFileProperties показує дані про пакети записані у файлі, час, та статистику пакетів.

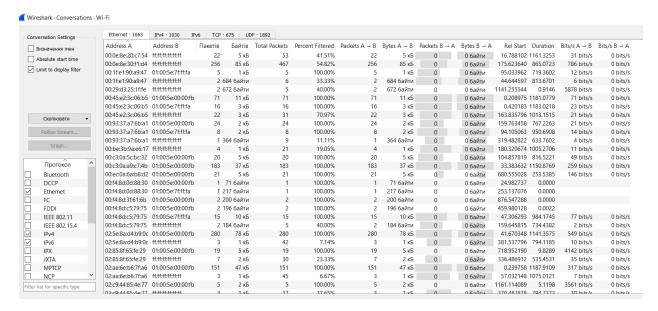

16. Resolved Addresses – має фізичні адреси, які отримували пакети або відправляли, а також порт та протокол за яким відправлено в другій вкладці.

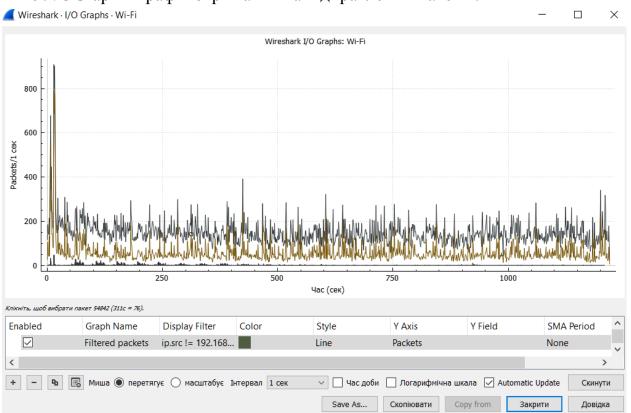

17. Protocol Hierarchy – показує ієрархію розподілення пакетів.

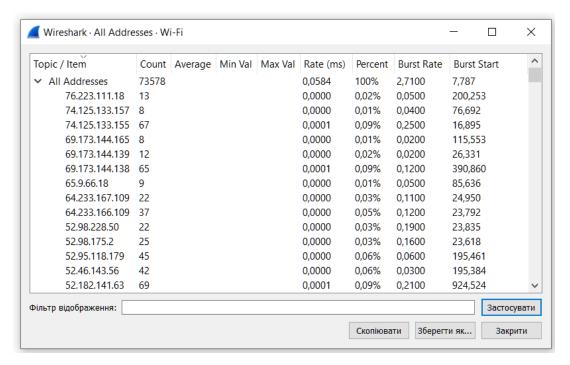

18. Conversations показує сумарні дані фізичними адресами, ір.

19.I/OGraph – графік отриманих та відправлених пакетів.

20. IPv4Statistics – показує всі адреси ірv4, які є у файлі та статистичні дані про них.

**Висновок**: отримав загальні уявлення про функціональні можливості аналізатора мережевих пакетів Wireshark, ознайомився з графічним інтерфейсом програми, навчився захоплювати, сортувати та фільтрувати пакети.
